ART DEPARTMENT PLANS TO PURCHASE PAINTING

The members of the art department of the Nineteenth Century club are planning to purchase a painting, which is included in the exhibition now being held at the Brooks Memorial art gallery.

After having consulted several authorities on art, the members have decided to make a choice between two pictures and will leave the choice to the members of the Nineteenth Century club. Members of the club have been asked to visit the gallery and view the two pictures, which will be pointed out to them by the gallery attendants, and to sign their names and the name of the picture which they like best in a book which will be provided for that purpose. All votes must be cast by Friday, April 30.

The two pictures are landscapes, one "Hill Tops" by Ben Foster, and the other, "Sunset," by Carl Lindén, both of whom are representative American artists.

Foster is at present one of a group of American artists represented in the Luxembourg, Paris. His picture is a great bargain and presents a rare opportunity for the club members. Lindén is an American artist of Swedish extraction, who is held in very high esteem, a wealthy wife, he has never been forced into commercialism and is able to paint as he feels. His picture under consideration is one to refresh a tired mind and is wonderful in coloring.

Musical at Hospital.

The patients at the Marine hospital had a real treat on Wednesday afternoon when members of the Adam Dale chapter, D. A. R., and other friends went in a body to entertain the sick and wounded boys with a delightfully planned musical.

The chapters were Mrs. Frank Gifford, regent, and Mrs. T. J. Hume, while Mrs. Mack Berry and Miss Lillian Byrd, members of the chapter, were chairmen of the program, which consisted of a violin selection by Miss Catherine McReever, vocal selection by Mrs. Selden Dimmock, with readings, ukulele selections and a number of bright and catchy songs by Miss Joe Clara Howe, Mrs. Carol Smith and Miss Lucy White Cannon were the accompanists.

The ladies presented to the hospital a donation of four dozen cups and saucers, following which the boys enjoyed delicious sandwiches and fruit. Pretty potted plants were placed about the rooms.

The afternoon's entertainment was as thoroughly enjoyable to the ladies present as it was to the boys, who look forward to the affair with much pleasure.

RAPID PROGRESS ON ASSESSMENTS

Board of Equalizers Have Fewer Complaints Than Anticipated on File

The city board of equalization is making rapid progress with the review of the assessments and, somewhat to the surprise of the members, comparatively few complaints are being filed, either to the present assessments, or to the increase of about 25 per cent, which the board will make in the figures submitted by T. G. Scarbrough, the city assessor.

The board has completed hearings in seven wards, beginning with the 15th. Complaints were heard Thursday for the 16th to the 22d wards. Friday, the board will hear complaints for the 23d, 24th, 25th, and 26th, and Monday will take up the review of the 27th, 28th and 29th wards.

Members of the board spent a week in going over the entire assessment before beginning public hearings. They are equalizing the valuations in each ward as they proceed, and will add the proposed 25 per cent to the reality lists as a whole, when hearings have been completed for all wards.

By that time the personality lists will have been completed by the assessor and will be turned over to the board for their review. Later the merchants and valorem returns will be made and will be reviewed. Personality lists, both for the city and the county, must be turned in by the assessors not later than April 25.

STATE TO BUILD MORE HIGHWAYS

Bids To Be Opened Saturday on Sections of Jeff Davis Highway.

Bids are to be opened Saturday by the state department of highways at Nashville for the construction of two important links on the Jefferson Davis highway, known in the department's files as Highway No. 2.

One section, of about 7 1/2 miles, is from the Memphis city limits, running south to the Mississippi line, over what is locally known as the Hernando road; the other, about 7 1/2 miles, runs between Ripley, Tenn., and the Tipton county line, in Lauderdale county.

Plans contemplated the building of the roadways with a bituminous macadam surface, but bids are also to be considered for surfacing with sheet asphalt, bituminous concrete or rock asphalt. The intention is to build a road which will withstand any possible heavy traffic.

The Hernando road is one of the best in Shelby county now, with a heavy oiled surface, but it has been found that the best oiled gravel roads break down under heavy traffic from tractors and heavily loaded trucks. The bids are to cover not only the roadways themselves, but also necessary culverts and bridges.

Plans contemplated the building of the roadways with a bituminous macadam surface, but bids are also to be considered for surfacing with sheet asphalt, bituminous concrete or rock asphalt. The intention is to build a road which will withstand any possible heavy traffic.
